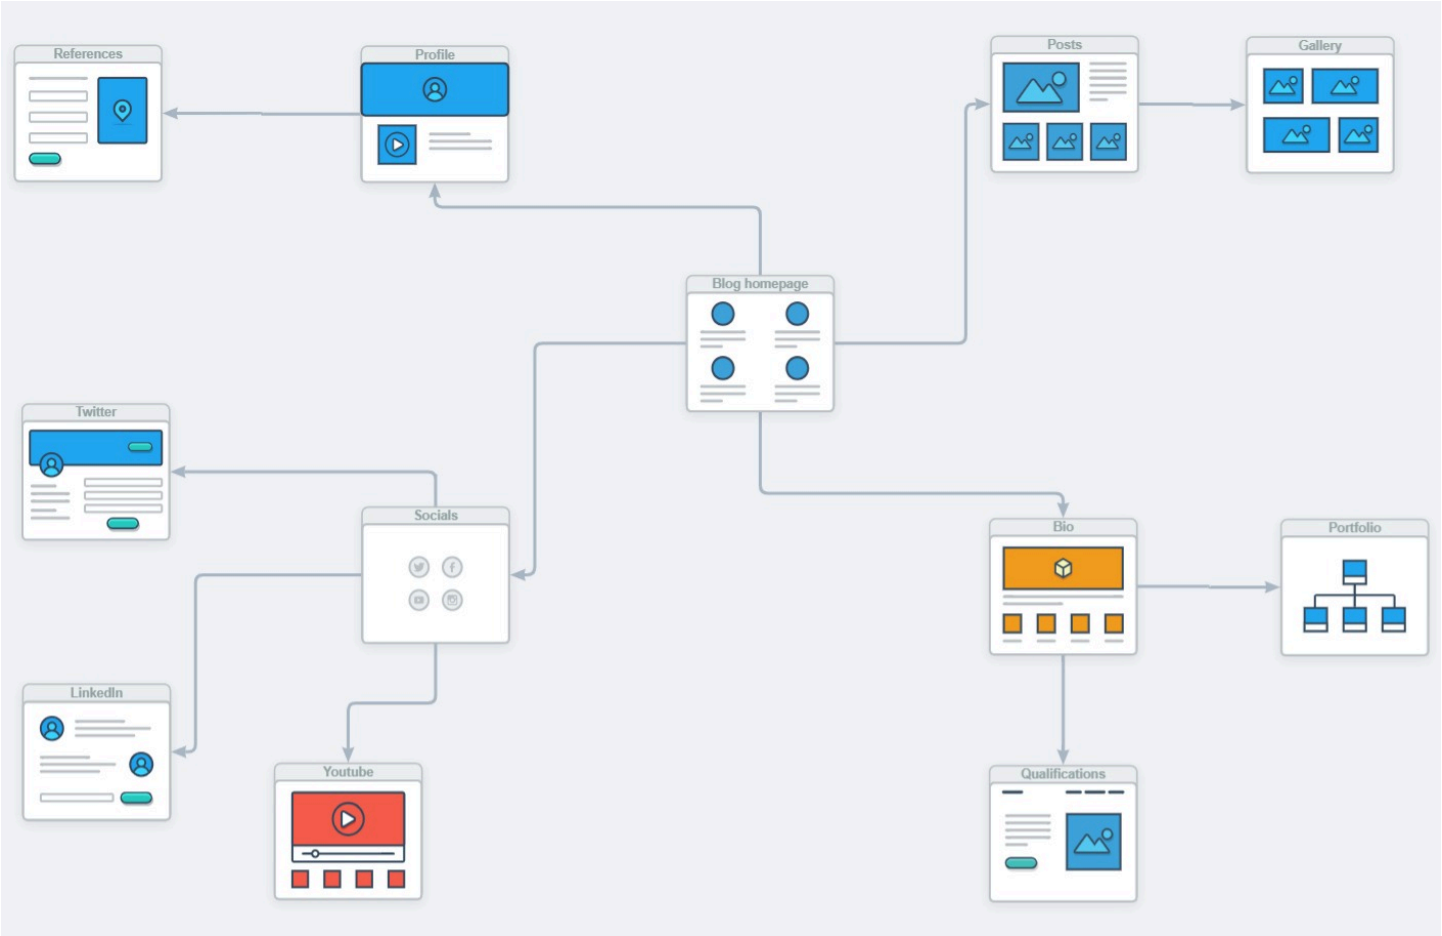
USER INTERFACE AND DESIGN

ROLL NO: 240701222 NAME: Kaaviya Sri PS

EXPERIMENT 3B:

PROTOTYPE WITH NAVIGATION USING WIREFLOW

AIM: The aim is to design a prototype with both well-known and new navigation elements and measure user-friendliness across different user groups using Wireflow.



The blog homepage leads to 4 different channels:

1) PROFILE:
- General rundown of history
- Includes references to other firms/institutions
- Lists projects, accomplishments, records

2) SOCIALS:
- Twitter, LinkedIn, Youtube, etc.
- Embedded hyperlinks leading to each account

3) BIO:
- Professional history listed including educational qualifications and certifications
- Links to portfolio (professional resume)

4) POSTS:

- Homepage to recent activity and blog posts
- Links to a gallery archive of all posts
- Recent likes, reblogs, comments
